

EACMFS White Book

Spain

Population (Millions): 46

Specialty Title: Médico Especialista en Cirugía Oral y Maxilofacial

National Association for the specialty: Sociedad Española de Cirugía Oral y Maxilofacial (SECOM)

No. of OMFS training centers: 32

No. of OMFS Surgeon: 590

No. of Trainees: 30

The OMFS specialty is part of which faculty? Medicine and Dentistry

Training paths followed before undertaking specialty training in OMFS

● Path 2) Single Medical OR Single Dental OR combination

Medical training (years): 6 Diploma ☒

Notes Issues: Double degree
Convalidation of titles of Spanish OMFS in other European countries
Troncality in OMFS training
The SECOM has launched in November 2009 a new White Book of OMS specialty. Past, present and future. This is a 2 year work that covers international relations, public and private practice, training and investigation, as well as trends for the future (we will send two samples to the EACMFS).

Notes 1 There is no government plans to introduce the double degree. Most of the public dental universities difficult the dental training for oral and maxillofacial surgeons in training. There is a plan to obtain the dental degree through some private dental institutions with classes and practices on weekends (Madrid, Barcelona and Oviedo).
SECOM and National Commission are doing arrangements to complete dental training without title through presential and online programs.

OMFS Specialty Training taken after Path 1 or Path 2

OMFS training period (years): 5

Surgical training within OMFS specialty training

Is gen Surg included? ☒
